

Codex Mobile

Your phone becomes the remote
for your computer.

Your computer does the work.

You direct it from your phone.

Connect in seconds

Desktop app. QR code.
ChatGPT on your phone.

That's it. You're **connected.**

A live control loop

You direct. The computer acts.
Results stream back.

What can it do?

Pretty much anything your computer can access.

Codex

What should we get done?

- Message Sarah: "I'll send the deck shortly."
- Schedule video Friday 4:00 PM
- Run research agent Summarize latest AI papers
- Pull sales data Q1 report
- Organize files Project Phoenix

Message Codex

Message Conversation

To: Sarah

I'll send the deck shortly. Delivered

Perfect, thanks!
